## **Reasons for Allowance**

Claims 1-19 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites, an image forming apparatus, comprising:

a groove that is formed on the lower body;

a link member that is pivotally connected to the upper body at one end and connected to the groove at the other end so as to slide in the groove; and

an elastic member that is connected to the lower body at one end and the link member at the other end, the elastic member being deformed when the link member moves together with the upper body, an amount of deformation of the elastic member increasing when the upper body is moved from the open position to the close position, wherein the groove has a first range where a moment to pivot the upper body to the close position is generated.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
